STARTUP IS NOT A ~~RACE.~~ IT'S A MARATHON.

HOW TO RUN IT *4 rules for the long road*

KM 0 → 42

01 PACE YOURSELF

Sprinters burst and fade. Those who rush **find it hard to sustain** success. Pick a pace you can hold for years.

02 LET IT COMPOUND

Thyrocare grew about **25% a year for 25 years**. No magic — just the same good stride, year after year.

03 SHOW UP AT 5 A.M.

"Define priorities and **focus from 5:00 am, consistently**." Stamina is built daily, not on race day.

04 RUN LIGHT, RUN ONE ROUTE

No debt weighing you down, no four rabbits to chase. He built Thyrocare **debt-free**, on one problem.

PACE · CONSISTENCY · STAMINA
